Apply By Email	hr@giu-berlin.de

Job Description

The German International University (GIU) and the German University in Cairo (GUC) cooperate in order to expand their campus in Berlin-Tegel as a hub for education and research cooperation with German and international partners in science and industry and to develop innovative courses of study and research that complement the activities of GUC. The language of instruction is English. Located in the heart of the German capital, the state-recognized German International University (GIU) opens its doors to expand its academic family. The Faculty of Design invites applications for the following position effective September 2022 (or later). Appointments are possible also for 50% of the working time.

The successful candidate will engage in teaching, research, supervision and administrative duties. She/he will establish and lead a research group in the field of Product Design, actively promote graduate and undergraduate research, and attract third-party funded projects in any chosen areas of interest in Design. The professor should oversee the establishment of specific product design workshops as well as contribute to selected teaching and supervision on GUC Cairo campus to foster teaching and research collaboration.

Qualifications:

Professor / Associate Professor in Product Design German International University
