We seek a visionary educator eager to collaborate with faculty from a variety of departments such as Film/TV/Electronic Media, Visual Arts, Music, and other related fields to expand our program offerings. This role will help shape the future direction of the program, with additional emphases on 3D printing, laser cutting, CNC technology, animation, drones, motion capture, concept art, and digital storytelling.

POSITION DUTIES:

In addition to the representative duties below, the specific position is also responsible for:

- Designing and teaching a range of courses that explore 3D design, animation, VR/AR environments, videography, photography, video studio production, digital painting, graphic design, and digital storytelling. This includes understanding Makerspace tools, such as 3D printing, laser cutting, and CNC technology, to enhance students' hands-on learning experiences and practical skills.
- Guiding students through project-based learning, portfolio development, and internship placements with local businesses. Provide mentoring that prepares them for transfer or direct employment in fields related to media, design, and digital fabrication.
- Cultivating a collaborative environment where students and faculty across various disciplines can participate in projects utilizing new media and Makerspace technologies, creating a rich, cross-functional learning ecosystem.
- Building relationships with local and regional organizations to create real-world project opportunities that incorporate new media and Makerspace technologies, enriching student learning and strengthening the college's role within the community.

This role offers a unique opportunity for an educator passionate about emerging media and design technologies to impact the next generation of designers, fostering an innovative, hands-on learning environment at the forefront of new media and digital fabrication.
