Blender, Unreal Engine, Maya Cinema 40 and/or Unity.

Desirable skills include industry experience, sound design, and coding. Competence in establishing professional networks and maintaining industry connections, along with experience in developing postgraduate programmes as well as strong management skills and a proven record of raising substantial research funding. A credible record of lecturing, peer-reviewed publications, community engagement, programme coordination, and supervision of students (research) at both undergraduate and postgraduate levels. A sound research profile, with a Google Scholar h-index of 4, and successful supervision of Master's (research) students will be an advantage.
