a faculty position as a Lecturer in Digital Film and Broadcast.

Candidates should have expertise in digital film production and/or broadcast media, with specialisations in any of the following areas: broadcast production, virtual production, emerging media technologies, and innovative production techniques. Strong professional experience in producing content for news and entertainment across multiple platforms in a multimedia environment is essential, along with the ability to translate industry practices into effective, practice-based learning. A Master's degree in film, media, or a related field is preferred. However, candidates with a relevant undergraduate degree and substantial professional experience will also be considered. Advanced qualifications such as a PhD are highly valued.

The successful candidate will contribute to our undergraduate programme by teaching in areas such as broadcast journalism, image, sound, and production, and/or practicums. Responsibilities may also include supervising Final Year Projects, engaging with the professional community, and supporting student internships. Opportunities will be available to develop new course content and design syllabi, alongside teaching relevant existing courses. Demonstrated teaching ability, ideally with several years of higher education or professional training experience, is desirable. We also value a clear commitment to curriculum development, programme innovation, and student success.

Emoluments

Salary will be competitive and commensurate with qualifications and experience. The University offers a comprehensive fringe benefit package.

Application Procedure

Please submit the following documents to us:

- Cover letter
- Curriculum Vitae including a full publication list
- Research and Teaching statements
